Gono Bishwabidyalay
Department of Computer Science and Engineering
Mid-Term Examination: July – 2026
Program: B.Sc. in CSE
Semester: 1st
Course Code: CSE-1102, Course Title: Structured Programming Language

Full Marks: 20 **Credit: 3.0** **Time: 1 Hour**

*[N.B: Answer any **two** questions. Figures in right margin indicate mark]*

1. a) Define why is C called a structured programming language. [2]
   b) Explain the basic structure of a C program with an example. [3]
   c) Differentiate between `int`, `float` and `char`. [3]
   e) Draw a flowchart to calculate the sum of two numbers. [2]

2. a) Explain the difference between pre-increment and post-increment operators. [3]
   b) Write a short note on Bitwise Operator. [3]
   c) Create a C statement to find the larger of two numbers using the conditional operator. [2]
   d) Explain the use of `getchar()` and `putchar()` with suitable examples. [2]

3. a) Evaluate the suitability of nested `if-else` and ladder `else-if` statements for solving a multi-condition decision problem. [4]
   b) Identify and correct the errors in the following code: [2]

```
int age;
printf("Enter your age: ");
scanf("%d", Age);

if (age >= 18);
   print("Eligible");
else
printf("Not Eligible);
```

   c) Explain the difference between the while and do-while loops. [4]
